

Ethernet

Critical Information Summary

Information about the Service

This service consists of an Ethernet connection over copper wire. Installation of new twisted pair cables is required in order to facilitate this service. This service provides a very scalable solution for customers requiring high speed inbound and outbound access with speeds ranging from 10mb up to 1GB (determination of maximum speed available will be made upon application).

- The minimum Term of Service is 24 months
- Early Termination fees will apply if cancelled prior to completion of the min contract term.
- This service does not include any hardware.
- Most Ethernet services are now deprecated with the introduction of the NBN This document forms part of our Standard Terms and Conditions.
